Amari Callbox Series

AMARI Callbox Extreme

AMARI Callbox Extreme is an ideal solution for testing NR and LTE user equipments. With its six embedded SDR 100 Cards, It can support 1 LTE cell 20 MHz 4x4 and 5 NR cells 100MHz 4x4 at the same time in sub 6GHz bands

Thanks to an additional FR2 Package the AMARI Callbox Extreme can also deliver 10 cells 100MHz 2x2 in mmWave (FR2).

Network deployment/technology Provider

Network deployment

Private 5G SA network

- Integrator/Operator: BT Sport/NeutralWireless
- Country: UK
- Core network: Amarisoft
- RAN: Amarisoft
- RRH: AW2S

World's first stand-alone 5G network introduced at the Silverstone British Grand Prix MotoGP

Prix MotoGP

World's first stand-alone 5G network introduced at the Silverstone British Grand

Network deployment

Fixed wireless 4G public network

- Integrator/Operator: Alsatis
- Country: France
- Core network: HALYS
- RAN: Amarisoft
- RRH: AW2S
- Number of sites: 60+

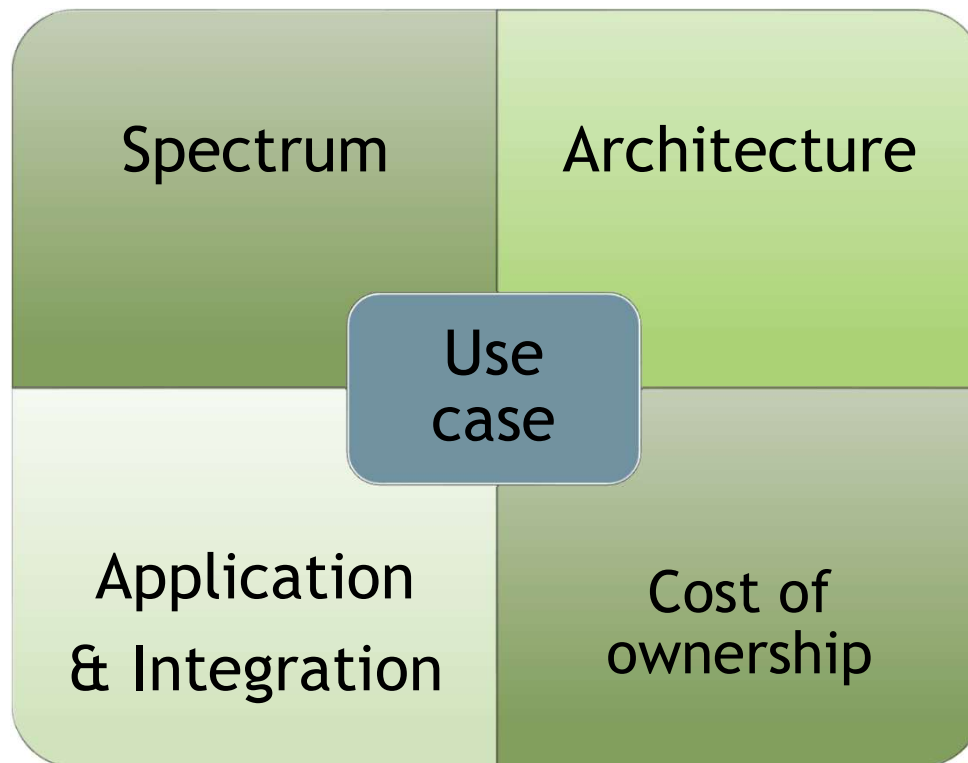

Network deployment

Rural Area Coverage

- Integrator/Operator: 5G Rural first
- Country: Scotland
- Core network: Cisco
- RAN: Amarisoft
- RRH: AW2S
- Number of sites: 13

5G Private network
